

Statewide Hearing Aid Assistance and Reuse Program (SHARP) - Accepting Discarded Hearing Aids To Start Recycling Program

What Is It?

In an effort to provide an affordable option for low income individuals in Kentucky with hearing impairments to acquire hearing aids, the KATS Network has established the Statewide Hearing Aid Assistance and Reuse Program (SHARP). Using a statewide network of Hearing Health Professionals, the goal of SHARP is to establish an effective model of hearing aid reuse. The first step in establishing this program is to collect hearing aids no longer in use.

How Does it Work?

We will accept hearing aids of any age/condition. Donated hearing aids will be evaluated and either refurbished to like new condition (including 1 yr warranty) or used for parts. Once fully operational, refurbished hearing aids will be provided to individuals through a statewide network of participating Hearing Health Professionals. Recipients will be responsible for covering the cost of the Audiologists fees (exams, fittings, follow-ups, etc.).

How Do I Donate Hearing Aids?

Simply contact the KATS Network at (800) 327-5287 to request a self addressed stamped envelope, or you can drop off your old hearing aids at one of our participating collection centers (your Vocational Rehabilitation Office, Independent Living Center, or a KATS Network Regional AT Resource Center). You will also receive a documented receipt of your donation.

How Do I Get Hearing Aids?

Traditionally, hearing aids can be acquired through various outlets, such as private insurance, Medicaid, Vocational Rehabilitation, KY Commission for Children with Special Health Care Needs, Alternative Financing programs, Charitable organizations, etc. However, all of these programs have limitations such as age, income, or employment. Once fully operational, SHARP will be the only hearing aid distribution program available in KY that is available to all ages, regardless of income level and/or employment status. Contact the KATS Network to learn more.
